The condition of seals on the container and the outer covering on receipt was as follows:-

The seals fixed on the container and the outer cover of the sample tallied with the specimen impression of the seal sent separately with a copy of memorandum in a sealed cover by the Food Safety Officer. The seals are found correct and intact.

I found the sample to be **Banana chips** falling under **regulation No. 2.12.1** of Food Safety and Standards (Food Products and Food Additives) Regulations 2011. The sample was in a condition fit for analysis and has been analysed on **16.09.2014** and completed on **18.09.2014** and the result of its analysis is given below /was not in a condition fit for analysis for the reason given below:
